

Project Summary

Problem

In a highly challenging environment of increased inequalities, our associations have an important role to play, especially in home societies, in support of MSF social mission and in bridging with our local communities.

Proposed Solution

With a focus on cities, as urban hubs, project focus on organized joint action of groups and communities within and outside MSF around world displacement. Opens a global dialogue, creates and widely shares tools and best practices, build synergies, links localities.

Potential Impact

- Presents alternative ways to organize mobilizing of our associations;
- Creates links to civil society groups
- Builds capacity of MSF Associations

Viability

- Brings together a network of an active community of initiators (association members, staff, beneficiaries, civil society representatives)
- Networked approach, adapted to each local context and connects to MSF global priorities

Risk Mitigation

- Builds linkages with Boards, Associative and Executive/Operations

Scalability

- Starts with a network of MSF entities both Associative and Executive, in 6 cities to help scale

Area/Type: Other/Incubator

Sponsor/Support: MSF Greece

Length/Project Status: 1.8 years; **ONGOING**
