4 Organizations...

Medical care to people affected by armed conflicts, natural disasters etc.

Protection of refugee, migrants' rights

*Empowerment and support of
migrant women in Greece*

GREENPEACE

*Environmental protection,
sustainable development and
natural resources exploitation*

What we do...

Urban Spaces is an MSF initiative implemented in 6 cities all over the world, where MSF members and volunteers, civil society and refugee and migrants' organizations are cooperating in order to support and express their solidarity towards migrants and refugees. In this context several awareness raising events and training activities take place.

School visits are an integral part of this effort and aim at informing students for the refugee and migration phenomena in Greece and all over the world.
