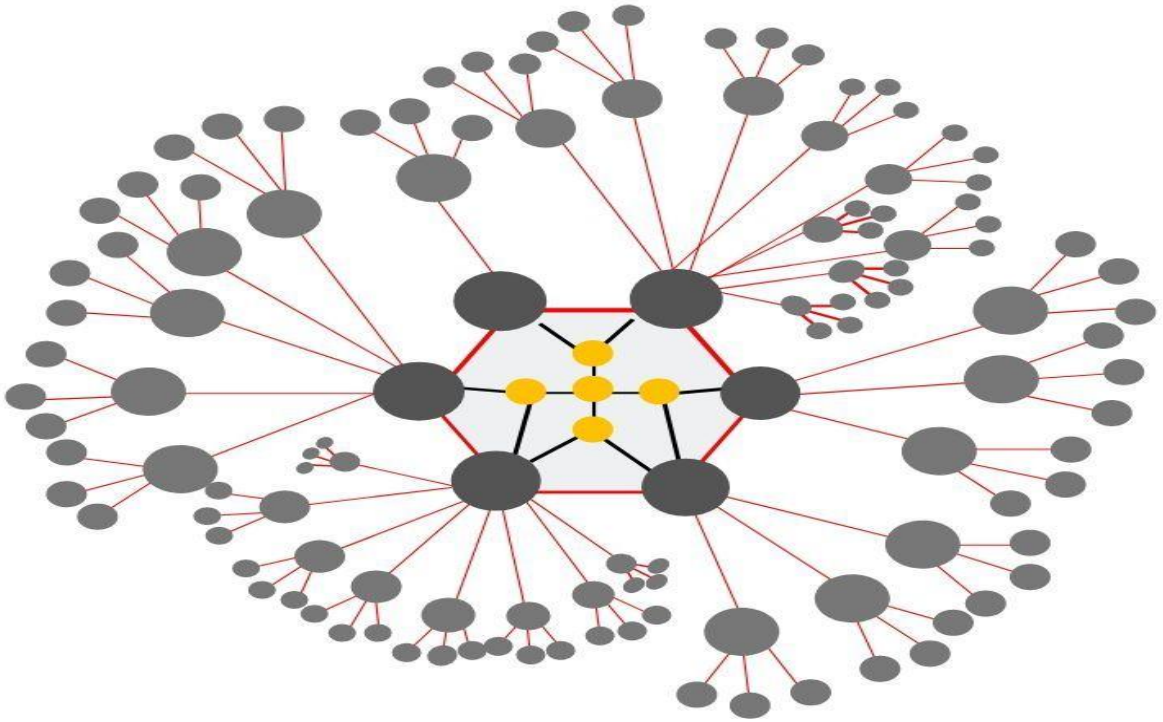
MEDECINS SANS FRONTIERES

URBAN SPACES

Collaborative Networked Approach & Organized Action



Building partnerships
A good partnership is one that achieves more than any single organisation could do. It is one where the mission of all partners is enhanced and where impact is either wider or deeper, or both.

Focus on Impact : No numbers without a story, no story without a number

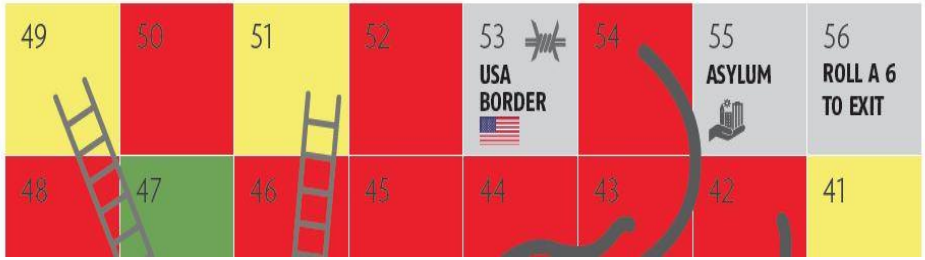
TRANSFORMATIONAL INVESTMENT CAPACITY

Forced to Flee

the Northern Triangle of Central America

SAFE PASSAGE
HUMANITY
DIGNITY

Due to violence and persecution, you are suddenly forced to flee your home. As you journey north through Mexico, what experiences await? Further injustice? Kindness? In the Northern Triangle of Central America, Doctors Without Borders/Médecins Sans Frontières (MSF) sees a pattern of violent displacement, mistreatment and forced repatriation akin to conditions faced by people caught up in the deadliest of armed conflicts elsewhere around the world. This is Not a Game is based on real-life scenarios documented in mobile clinics and shelters in Mexico where MSF provides humanitarian assistance to people in flight.



TRAINING MATERIAL:

"The role of communication for positive narration and perception of migration"
