

# JOHANNESBURG

## ACTIVITIES

- Solidarity 'Hub' at community clinic in Pretoria
- Support of awareness raising events organised by migrants and refugees
- Informal network with focus on migrants and refugees with disabilities
- Partner with Tshwane Project on World Refugee Day Activity
- Reach out to Regional Focal Points for Local Action Development

## CASE STUDY

### **Sediba Hope Clinic, Pretoria**

In support of MSF Mental health program (OCB), our volunteers, are helping at the creation of a 'hub' of solidarity and hope for migrants and refugees, visiting the clinic. MSF association members have collected donations in toys, books, clothes a.o to offer the migrants and refugees visiting the clinic. A series of support services, such as patient navigation, child care and translation services are planned to take place twice per week. Based on volunteers' skills, a series of empowerment activities will also be organized. The idea is to create a space of human interaction and support, where people can be welcomed and feel they are not alone.
